## OBJECTIVE

I'm an Information Systems student passionate about building real-world software that solves meaningful problems. I'm seeking a Software Engineer Internship—whether in Frontend, Backend, or Android development—where I can contribute to impactful products, learn from experienced engineers, and grow through hands-on coding, cross-functional collaboration, and continuous learning. My goal is to become a well-rounded developer by building, debugging, and improving — one line of code at a time.

## TECHNICAL SKILLS

- Programming Languages: Java, PHP, JavaScript, TypeScript, C++.
- Frontend: HTML, CSS, JavaScript, TypeScript, Vue.js.
- Android Development: Java (basic), Android Studio.
- Backend: PHP (Laravel), RESTful API, MVC Architecture.
- Databases: MySQL.
- Tools & Platforms: Git, Docker, Postman.
- Development Practices: OOP, Algorithms & Data Structures, Debugging & Refactoring.

## SOFT SKILLS

- Problem-solving, teamwork, communication, adaptability, continuous learning, time management, ownership.
